FY 2023
USACE MOBILE DISTRICT AWARDED CONTRACTS

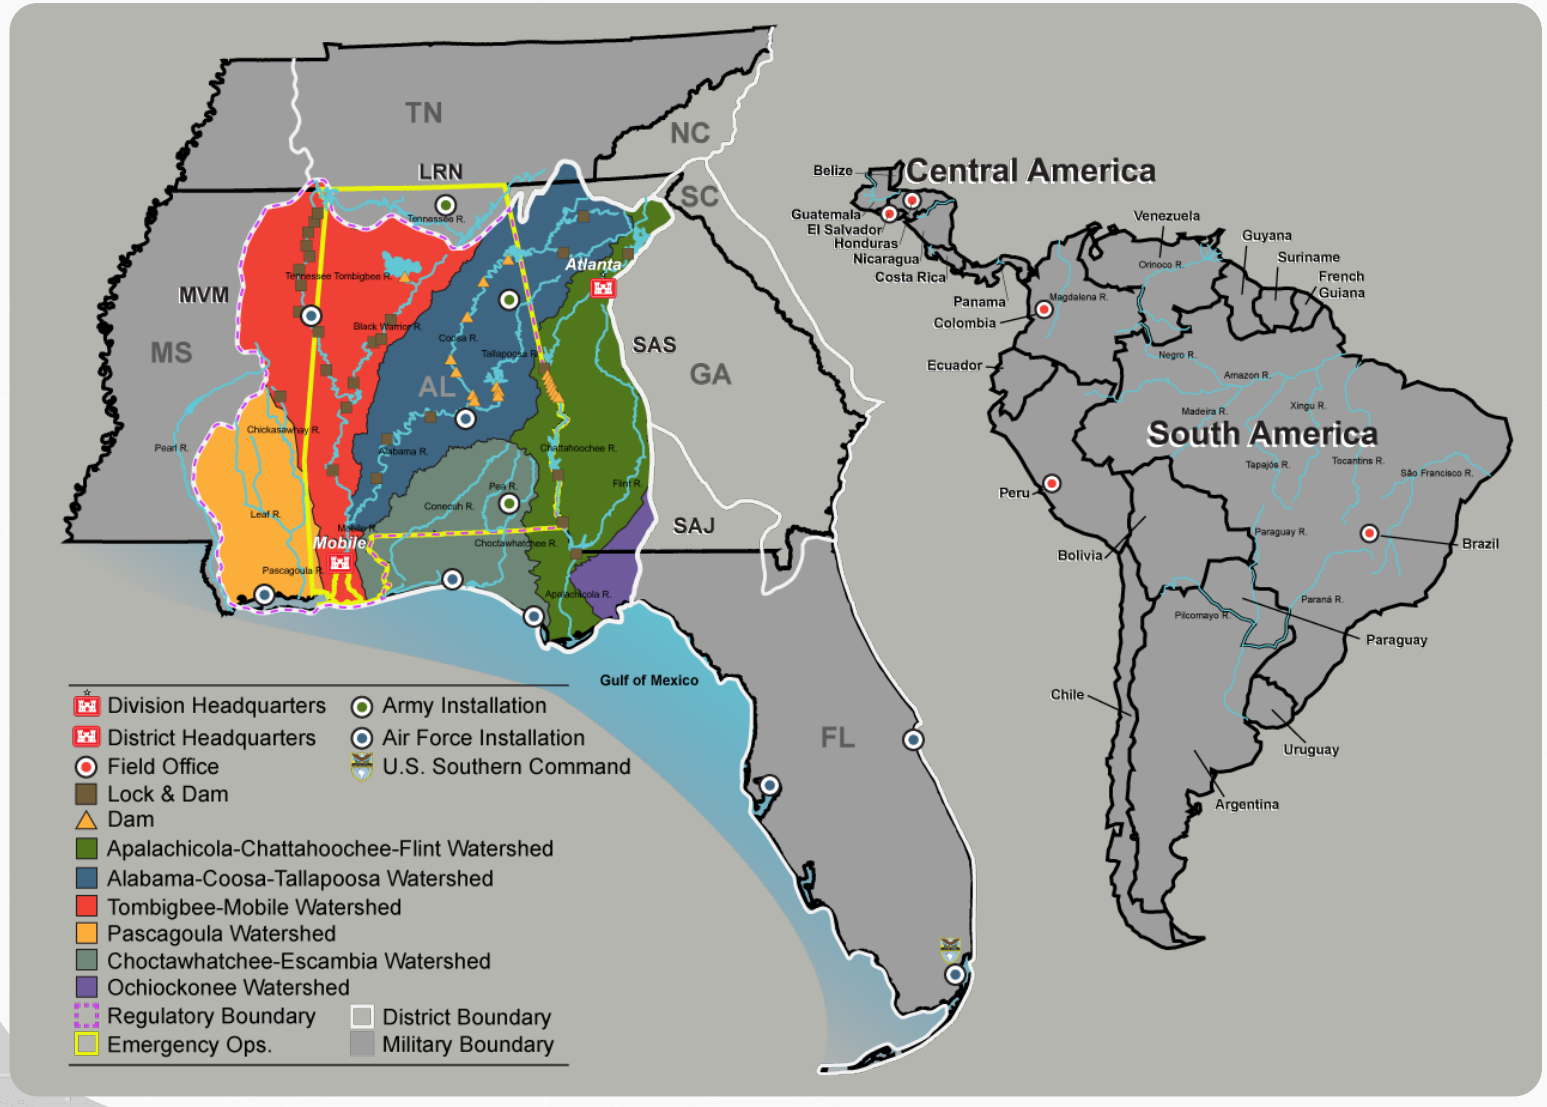

OFFICE OF SMALL BUSINESS PROGRAMS

15 December 2022

US Army Corps of Engineers ®

MOBILE DISTRICT
AREA OF OPERATIONS

Colonel
Jeremy J. Chapman

Commander and District Engineer
Mobile District

District Facts:

Established in 1815, the Mobile District employs 1,100 civilian personnel and approximately 10 military officers with a presence that covers the states of Alabama, Florida, Georgia, Mississippi as well as all Central and South America. The Mobile District manages a $1 billion Military, Civil Works, and International/Inter-agency Support program that responds to disasters, manages water resource infrastructure, protects the environment, and provides facilities for our national defense and inter-agency partners.

The Civil Works mission includes the operation and maintenance of six major river systems providing over 2,200 miles of navigation, seven deep-water harbors, 21 shallow draft ports, and flood control with over 67 projects that have prevented in excess of $200 million in flood damages over the last ten years. The District's eight hydropower facilities generate 2.06 billion kilowatts of electricity and return $44.8 million of the U.S. Treasury. Mobile also manages one of the largest recreation programs in the Federal government with 27 lakes and 464 recreation areas averaging more than 34.1 million visitors a year.

Mobile District provides project management, construction, and engineer services to support the Department of Defense Military Construction, International support to U.S. Southern Command (SOUTHCOM), and Inter-Agency Support to NASA, FBI and other federal agencies. The District also provides engineering studies and other technical assistance such as master planning, environmental management and real estate support.

AWARDED A&E SERVICE CONTRACTS

The United States Army Corp of Engineers (USACE's) projects are received from Department of Defense, U.S. Army, U.S. Army Reserves, U.S. Army National Guard, U.S. Air Force, U.S. Navy, U.S. Marine Corps, Defense Logistics Agency Projects, USACE Federal Military and Civil Works Projects, Department of Homeland Security, Defense Health System, Centers for Disease Control, U.S. Fish and Wildlife Service, and other Federal Agencies.

Contractors can use this information as a networking tool in order to obtain subcontracting opportunities or as a planning guide to bid on re-procurement acquisitions.

HYDRO POWER PROJECTS

Hydropower is a critical mission executed by the US Army Corps of Engineers. The South Atlantic Division has 14 hydropower plants with over 3100 Megawatts of installed capacity. SAD also operates and maintains two of the four USACE pumped storage hydropower facilities. These two facilities are located at the Richard B. Russell and Carters Projects and are the two largest USACE hydropower facilities east of the Mississippi with over 1200 megawatts of capacity between the projects. The following pages contain a list of contractors who repair and or replace deteriorated and or failed generator components at USACE's Hydroelectric Facilities located within SAD.
